

# GENERAL PRACTICE RESIDENCY

## JBVAMC Chicago General Practice Residency

General Practice Residency Program is a one year advanced training in clinical and hospital dentistry for the recent graduate. Two residents are selected annually allowing the resident to learn to work effectively in the hospital environment and give them the opportunity to refine and advance knowledge and skills in clinical dentistry.

- Comprehensive treatment for eligible patients not reliant on patient's ability to pay
- Staff prosthodontist, periodontist, and oral surgeons
- CEREC, Implants, Endodontic Microscope & rotary instrumentation, Digital Radiography, Cone Beam CT and Full Service Dental Lab on site
- Applications must be submitted via PASS
